Please collect your sponsorship money and send into school by Friday 8th December thank you.

Hygiene

We have been working very hard with the children in Class 2 recently to support them with hand washing and basic hygiene awareness, as we have had a few cases of threadworms. They are very common and parents can find out more here <https://beta.nhs.uk/conditions/threadworms/>

There are some very simple and effective ways that families can help to contain the spread of threadworms including keeping children's nails short, helping them to develop and maintain good handwashing habits after using the toilet, discouraging children from sucking fingers / thumbs / biting nails / sucking toys. One of the best times to check your child is while they are warm and sleeping. Treatment for the whole family can be bought over the counter at the pharmacy
