Please help us to encourage parents to check their eligibility for free school meals and support your school

Cheshire East Council is raising awareness of the eligibility for free schools meals and the pupil premium that comes with this. Parents may not be aware of the additional funding that you receive from the government through a pupil premium.

A campaign is launching on Monday 25th March and will run through until early May, in readiness for the school census deadline.

Please find enclosed a supply of posters to display in reception office areas to encourage parents to complete the online registration form.

Please also look out for social media messages from the council's Facebook and Twitter account.

A resource kit containing items for you to use on your own website and social media channels to raise awareness is available to download from https://www.cheshireeast.gov.uk/schools/free_school_meals.aspx

Full information on the eligibility criteria for free school meals is also available on this above link.

Thank you in advance for your support.
