

National  
Trust

# Sandbox September

As part of the National Trust's Heritage Open Day events, the Riverlands Bollin, Sinderland and Goyt Catchments Team will be bringing a Virtual Reality Sandbox to a National Trust property near you. Mountains, valleys, rivers, lakes – become the master of your own topographic creations. We use a Kinect camera, a projector, a big tub of sand and some amazing software to overlay a colourful, animated topographic map over piles of sand. The map constantly updates as you move the hills and mountains around with your hands.

Explore how we  
can influence  
natural flood

Watch as the water  
flows from source to sea

Learn how you can  
join us to create  
healthy rivers and  
catchments, rich in  
wildlife, enjoyed and  
cared for by all

## Get Involved

Join us at our Heritage Open Day Saturday sessions:

14 September Dunham Massey

21 September Lyme Park

28 September Quarry Bank
