

Living with COVID-19: advice for those aged 18 and under

Has your child or young person aged 18 or under tested positive, or do they feel unwell with COVID-19 or flu-like symptoms? If so, there are a few simple steps they can take to protect their family and community – especially those at highest risk of severe illness.

If they feel unwell and have a high temperature, with COVID-19 or flu-like symptoms, they should:

Try to stay at home, avoid contact with others and follow the guidance on [gov.uk](https://www.gov.uk)

Try to avoid going to school, college or childcare until they no longer have a high temperature and are well enough to return

Carry on attending as normal if they only have mild symptoms like a runny nose, sore throat or slight cough and otherwise feel well

If they have had a positive test for COVID-19, they should:

Try to stay at home, avoid contact with others for 3 days and follow the guidance on [gov.uk](https://www.gov.uk)

Try to avoid going to school, college or childcare during this time, where they can

Go back after 3 days, but only if they no longer have a high temperature and feel well enough to do so
